**APPROVAL OF EXTENSION REQUEST – BUILDING 1/36 SOIL VAPOR SAMPLING RESULTS - THE BOEING COMPANY, FORMER C-6 FACILITY, 19503 SOUTH NORMANDIE AVENUE, LOS ANGELES (SCP NO. 0410; SITE ID NO. 1846000)**

Dear Mr. Scott:

We have received the "Extension Request for Soil Vapor Sampling Report, The Boeing Company, Former C-6 Facility, Building 1/36 Area, Los Angeles, California", (Letter) dated July 27, 2010, prepared by Haley & Aldrich, requesting an extension to the due date for the Soil Vapor Sampling Report for the Building 1/36 Area. Our letter dated August 25, 2009 requested a Soil Vapor Sampling Report documenting the results of soil vapor sampling in the Building 1/36 Area to be submitted to this Regional Board by July 31, 2010. The soil vapor sampling is being conducted to evaluate offgassing from the groundwater table and the associated migration of vapors through the soil column and is being conducted as part of the closure evaluation for the Building 1/36 soil vapor extraction system. The extension is being requested in order to conduct an additional round of soil vapor sampling in September 2010 and incorporate the September results into the report.

We have reviewed your extension request and you are hereby granted a due date extension in which to submit the Soil Vapor Sampling Report for the Building 1/36 soil vapor extraction system from July 31, 2010 to **November 30, 2010**.

If you have any questions please call me at (213) 576-6738 or email at [atownsend@waterboards.ca.gov](mailto:atownsend@waterboards.ca.gov).

Sincerely,

Ana M. Townsend  
Water Resources Control Engineer  
Site Cleanup I Unit
